Forecast for Friday 28 May 2021

Weather: Cloudy with outbreaks of rain and drizzle edging in from the west during the early hours of the morning. The generally overcast and damp conditions persists all morning and into the afternoon with further outbreaks of mainly light rain, however heavier bursts are possible at times. Remaining cloudy into the evening with a few isolated showers but tending to become drier later.

Chance of cloud free mountain/hill tops above 800m: 20% rising to 50% from mid-afternoon.

Visibility: Generally good with cloud bases around 800m throughout the day, patches of cloud at 500m will often cover hill tops especially during periods of more persistent rain, reducing visibility to poor, most frequently through the morning into the early afternoon.
